PROFESSIONAL SUMMARY

Results-driven Frontend Developer skilled in HTML, CSS, JavaScript, and React with hands-on experience building responsive, user-friendly web applications with clean and scalable interfaces. Proficient in UI/UX design using Figma and backend integration with Supabase. Passionate about modern web technologies and eager to contribute to high-impact projects at innovative startups.

TECHNICAL SKILLS

Languages & Frameworks: HTML5, CSS3, JavaScript (ES6+), React.js **Backend & Tools:** Supabase, REST APIs, Git & GitHub

Design: Figma, UI/UX Design, Responsive Web Design

PROJECTS

Campus Merch App · Personal Project

2025 – 2026

- Developed a modern e-commerce web application for customized college merchandise using React.js and responsive CSS.
- Designed modular product sections and a seamless shopping UI, improving accessibility and user experience across devices.
- Implemented component-based architecture for scalability and maintainability of frontend codebase.

Startup Dashboard · Collaborative Project

2026

- Built an interactive startup management dashboard featuring analytics, task tracking, and project organization modules.
- Created clean, responsive UI components with a focus on real-time data visualization and usability.
- Applied design system principles to ensure visual consistency and intuitive navigation across dashboard views.

Developer Productivity

2025 – 2026

Platform · Collaborative Project

- Designed and developed a gamified productivity platform enabling developers to manage projects and track workflow efficiency.
- Integrated backend services using Supabase for real-time data sync, authentication, and database management.
- Collaborated on feature planning, UI design, and component development; delivered responsive interfaces from Figma mockups.

EXPERIENCE

Frontend Developer (Project-Based) · Academic & Startup Projects

2024 – Present | Faridabad, Haryana

- Designed and delivered multiple responsive frontend interfaces using React.js and Figma across academic and startup-oriented projects.
- Integrated third-party APIs and Supabase backend services to support real-time features and dynamic data rendering.
- Collaborated in cross-functional teams on industry-oriented projects, contributing to UI design, code review, and sprint planning.

EDUCATION

B.Tech in Computer Science Engineering · K. R. Mangalam University

2025–2029 | Gurugram, Haryana

- Currently in 2nd Year — Coursework: Data Structures, Algorithms, Web Technologies, Database Management Systems.
- Actively building a portfolio of frontend projects while pursuing internship opportunities in React and web development.

LEADERSHIP & ACTIVITIES

- Team Leader on industry-collaborated academic project, coordinating sprint planning, task delegation, and delivery timelines.
- Passionate about startups, open-source web development, UI design, and building community-driven digital platforms.

ACHIEVEMENTS

- 2× Hackathon Winner at university-level competitions.
- Selected for “Best Project” during First Year Engineering Program
- Secured 1st Position in Business Quiz at an Inter-University Event
